Indicator Notes

14 Figures are log odds of loneliness. Areas with a value closer to 0 predict a greater prevalence of loneliness amongst those aged 65 and over and living in households compared to areas with a value further away from 0.

15 Figures relate to the standard BME group, with the addition of white other (typically Easter European) and Gypsy or Irish Travellers

A concealed family is one living in a multi-family household in addition to the primary family, such as a young couple living with parents.
